

Jaypee Launches Bar De-Coiling Machine And Scrap Straightening Machine

Today, Jaypee India Ltd is one of the renowned manufacturer, exporter and importer of wide range of construction machinery and allied products. Our range of products in Rebar processing equipment are Bar Bending Machines, Bar Shearing Machines, Bar De-coiling and Straightening Machine, Scrap Bar Straightening Machine, Portable Cutting Machine, Radius Bending Machine, Manual Stirrup Bending Machine, Spiral Bender. Besides, Batch Mix Plant, Concrete Mixer, Mini Dumper, Walk Behind Vibratory Roller, Tower Crane, Passenger Hoist, etc include our product range in Concrete processing and Material handling equipment. We are using CNC Jig Boring Machines, CNC Milling Machines and numerous hi-tech machine tools which help us achieve the desired production requirement whilst keeping the quality at par with International standards.

The company's recent launches include Bar De-coiling machine and Scrap straightening machine, have received tremendous response from the market. The company's recent launches are both material saving machines thus minimizing wastage. The industry has given a tremendous response to these new offerings as it has provided them with substantial savings not only for their company but even for the economy by reducing the wastage of steel at site.

Jaymac Automatic Steel Bar De-coiling Straightening And Cutting Machine is an innovative design for straightening round steel, hot and cold rolled rebar steel, ribbed steel and thread screw steel. Used in building construction, steel rolling machines the automatic machine has high traction speed, straightening stability and cutting for working in a better, safe, and continuous output.

Technical Specifications:

Model	ST - 12
Straightening Steel diameter	4 ~ 12 mm
Wire transportation speed	40 ~ 45 m/min
Wire design length (can be increased)	300 ~ 6000 mm
Cutting length error	± 1cm
Motor Power	
Transportation motor	5 hp
Straightening motor	7.5 hp
Cutting motor	5 hp
Dimension	1870 x 890 x 1300 mm
Net weight	900 kg

Jaymac Scrap Bar Straightening Machine, Straightens tangled and twisted steel bar such as scrap. Extremely effective for civil construction as straightened steel can be effectively put back to use.

Technical Specifications:

Model	SC - 12	Motor	7.5 hp
Feed rate	25m/min	Capacity	4-12 mm
Weight	800 kg		
Dimension	1300 x 900 x 650 mm
