In addition, Jaypee plans to launch new product range Light Concrete Machinery which comprises of HF Concrete Vibrators, HF Converters, HF Vibrators with inbuilt inverter, shoulder vibrators or eccentric shaft portable vibrator.

### Future strategy

Jaypee is going to serve Indian and abroad customer with the help of Jaypee Italia S.R.L., Italy a sole subsidiary unity of Jaypee India. According to Kumar Mehta, Director, Jaypee India, "With this, Jaypee will bring lot of value to the end users, and will become one stop shop of supplying quality products. With help of Italian technology and Jaypee's dealer and customer network in India and abroad, we will definitely grab the market within very short period of time. We are optimistic about

receiving good response from the market like always."

### Features and application areas of new MFH series

Latest in hoisting solutions by Jaypee the MFH series is multifunctional equipment for all your hoisting needs. The hoist can be used for carrying concrete and also finishing materials such tiles, fittings etc. With an optional rebar carrying attachment, users can now eliminate the need for installation of tower cranes at site.

The product comes several advanced features. These are:

- Controlled lowering
- Reverse failure and reversal protection
- Broken rope safety device and emergency brake
- Slack rope limit switch
- Emergency stop switch
- Drive motor thermal overload protection.

### Expectations from EXCON

"EXCON has always been an excellent international platform to showcase Jaypee products. We hope that this year also the experience turns out well. However, the event is not exactly a selling platform for the company. It's more important for brand promotion and marketing," said Mr Mehta, CBT ■
