TECHNOLOGIES innovative modern machines state-of-art solutions

and abroad customer with the help of Jaypee Italia S.R.L., Italy a sole subsidiary unit of Jaypee India.

With this action Jaypee will bring lot of value to the end users, and will become One Stop shop of supplying quality products.

With help of Italian technology and Jaypee's dealer and customer network in India and abroad, we will definitely grab the market within very short period of time."

And we are optimistic about receiving good response from the market like always.

Q. Brief us about their key features and application areas.

Ans. Latest in hoisting solutions by Jaypee the MFH series is a multi-functional equipment for all your hoisting needs. The hoist can be used for carrying concrete and also finishing materials such tiles, fittings etc. With an optional rebar carrying attachment, users can now eliminate the need for installation of tower cranes at site.

The product comes with several advanced features. These are:

- Controlled lowering

- Phase failure and reversal protection
- Broken rope safety device and emergency brake
- Slack rope limit switch
- Emergency stop switch
- Drive motor thermal overload protection

Q. What are your expectations from Excon 2013?

Ans. EXCON has always been an excellent international platform to showcase Jaypee products. We hope that this year the experience also turns out well. However, the event is not exactly a selling platform for the company. It's more important for brand promotion and marketing.

Q. Kindly share with us your Hall and Stall No at the Excon Event where we can visit Jaypee stall?

Ans. Visit Jaypee's Stall No-707 of Hall 3-Lower Level, at Excon 2013.
